Parking – a reminder

There are several Wilsons Car Parks close to the Town Hall, the nearest being right opposite, however they aren't cheap, and free on-street parks are very hard to find as people snap them up very early in the morning. So I suggest that if people are being accommodated within walking distance of the Town Hall, that they consider walking there, and sharing a taxi back afterwards. For you 'flat city' dwellers, our hills may make you puff a bit! A taxi could well be cheaper than parking for any length of time. There are plenty of parking meters but some of the ones closest to the venue are time limited, and our parking wardens are very vigilant!!!

Do keep an eye out for small blue 'residents parking space' signs. They are strictly for inner city dwellers (like me) who pay the Council for the use of an on-street inner city car park. You will get ticketed if you park in these spaces. I've attached a link which people may find helpful.
